Flat shares

Many German students live in flat shares, where everyone has their own bedroom and kitchen and bathroom are shared.

These apartments are usually unfurnished, but some students are looking for subtenants for their own furnished rooms while abroad.

This is the most popular website for flat shares in Germany:

Home Company Rostock

This company rents out privately owned single rooms and small apartments, some of them are furnished. Besides rent and deposit tenants need to pay a brokerage/commission to the company.

Private housing companies

In Rostock there are various housing companies that hire out apartments. The rent varies depending on location, size and condition of the apartment. However these apartments are **completely unfurnished** (without kitchen furniture and appliances) and separate contracts with power, heating and internet suppliers will be necessary. Thus renting an apartment with these companies is not advisable for short periods of time.
