

Are you going to enter into a contract with a publisher?

If you additionally wish to enter into a contract with a publisher you may choose the option to delay the release of the online publication for one year.

If the publisher does not agree with the parallel publication on the Library's repository, you have to submit a copy of the contract. Afterwards the bibliographic data and the PDF/A file will be deleted.

If you don't submit any contract, the dissertation/thesis will be made available *online* after the deadline.

What happens after the submission of your electronic dissertation/thesis?

- By submitting the bibliographic data, PDF/A file and four hard copies you conform to all requirements of the „Pflichtexemplarordnung“. A confirmation about this matter will be sent by fax to the „Promotionsstelle“. You will be informed by e-mail.
- The full text of the electronic publication is now available *online* free of charge and without any restrictions. No further changes are possible.
- The online publication is available on the library catalogue, on internet search engines and on the catalogue of the German National Library where all German electronic dissertations/theses are registered.
